

# Brigáda - part-time job: Data technician / helper

We are a research team (<https://petrkeil.github.io>) at the [Faculty of Environmental Sciences](#) of CZU in Prague, Czech Republic. We study how nature changes in time by analyzing temporal trends in large biodiversity databases, focusing on birds, mammals, butterflies, and vascular plants.

You would help us with **converting published literature into digital data**, with additional tasks including online search, data cleaning, identification of problematic entries, data harmonization, and improvement of database structure. Suitable for students or parents seeking extra income.

## We require:

- Interest/experience in natural sciences, computer science, or technical fields. Students in BSc, MSc, or PhD programs are encouraged to apply.
- English – you will read and communicate with our international colleagues.
- Good command of MS Excel. Advantageous but not necessary is basic experience with R, Python, or similar environment, and/or GIS. Some experience with databases (MS Access, SQL) and data management may be useful.
- We welcome applicants of all genders, backgrounds, and ages.

## We offer:

- Starting **gross salary of 22 700 CZK / month for 50% FTE**, and a contract until the end of 2026.
- A good laptop for the duration of the job.
- International working environment, office space at CZU in Suchdol.
- Access to university facilities and subsidized lunches at Menza.
- **Immediate start of the job**.
- Flexible working hours and the option to partly work from home.

## Applications

To apply, please e-mail (to [beast@fzp.czu.cz](mailto:beast@fzp.czu.cz)) your English-written CV (1 page max) and a short motivation letter (1 page max) stating why you are a fit to the team and for the job. Put “data technician” to the email subject. Evaluation will start on **26/1/2026** and will continue until the position is filled. Call Petr Keil for additional information: **776 371 840**
